## National Library Week Announced For April 16-22

National Library Week is being celebrated throughout the nation, April 16 to April 23.

We in Albany are very proud of our beautiful building that was opened in December, 1952, and now contains 21,500 volumes. Favored books of half a century ago, as well as the latest in fiction and non-fiction are included in the collection.

A measure of the community's use of its library can be seen in its circulation figures. During the last year Albany readers borrowed 103,724 books and magazines, an increase of over 23,000 above the figure for the first year of operation in this present building.

The library is supported solely by Albany taxpayers, 15 cents on \$100, quite a difference from the first branch library that was established in December, 1913. According to the first annual report "the town trustees pay \$5.00 a month towards buying books." A yearly fee of \$2.00 is charged non-residents of whom there are quite a few.

The library strives to meet the needs of individuals by county affiliation to richly varied regional resources.

Its standard is to expand its services as an integral part of a changing, varied city to fulfill in as many ways as possible its cultural role in the community plan.

Mayor Carlevaro has issued a proclamation calling attention to the library, urging all citizens to take advantage of its facilities.

## Proclamation

WHEREAS, the theme of this week has been declared "For a Better - Read, Better - Informed America"; and

WHEREAS, Albany Citizens are cognizant of the privileges and advantages of library membership; and

WHEREAS, books are so vital to our country's advancement in the cultural and educational aspects of our modern civilization.

NOW, THEREFORE, for these reasons, I, Joe Carlevaro, Mayor of the City of Albany do proclaim NATIONAL LIBRARY WEEK, April 16-22, 1961 and hereunto set my hand and cause the seal of the City of Albany to be affixed this 10th day of April, 1961.

## Chamber Chatter

By IRENE GROVE

This is a very important time of the year for your Chamber of Commerce — with many important events and activities. There are some important dates to mark so have your date calendar ready.

A new administrative year begins for your Chamber of Commerce, May 1, 1961. Six new directors are to be elected during the month of April and new officers at the May 4 board of directors meeting. A nominations committee has been named by President Walt Brophy consisting of Ernest Dix, May Ellis-Olson, and Ken Forry. All Chamber members will be receiving their ballots for this important election within the next two weeks. An organization in order to have strength and purpose must have strong leadership. The six retiring directors, Ernest Dix, Frank Larimer, Eddie West, Bernice Boyd, May Ellis-Olson and Floyd Baird have given three years of excellent service to the progress of our city and will be hard to replace.

New officers elected May 4 will be introduced and installed at the Annual Membership Dinner, Friday, June 9, so mark that date in red on your calendar. It is the big event of the year for your Chamber!

Albany Day at Golden Gate Fields is Thursday, April 20! This is Albany's Day at the races and tickets for the Turf Club will be available at the Chamber of Commerce office. A luncheon in the Turf Club will begin the afternoon with reserved tables for the group. First choice for tickets and luncheon reservations will be given to Chamber members and Albany business men and women.

May 13 is another big race day for Albany — That is the date for the running of the Albany Handicap.

For a really big evening mark the date, Saturday, April 22 — It's the Albany Soroptimist big Jamboree at the Golden Nugget (Eagles Hall), 3224 Carlson Boulevard, El Cerrito — Sounds fun, doesn't it? There will be a chuck wagon feed, door prizes, dancing, entertainment (Madame Claire and her Girlie Show), games with terrific prizes — all for only \$5.00 per person. Decorations, props and favors are all from Harold's Club in Reno — so contact all your friends and make up a party for a big evening.

Fourth of July is right around the corner — and plans must be made for Albany's annual community celebration. Representatives of Albany clubs and organizations are asked to attend a planning meeting, Wednesday, April 19 — let's hear from you for your suggestions!

It was wonderful to have our new City Engineer and City Administrator James Turner at the April 6 Chamber of Commerce Board meeting to explain the progress of two important Albany projects: the proposed Tidelands Development and Rapid Transit Routing.

## House-to-House Cancer Drive Starts April 17

Nearly 3,000 volunteer women have been used to date, to help launch the April 17 residential campaign of the Alameda County Branch of the American Cancer Society.

Each day, for months preceding the campaign, women from all over Alameda County gather to sort cards, prepare labels, check for duplications on block workers lists, type, file and perform a multitude of tasks necessary for the conduct of any campaign.

Mrs. William M. Smock of Alameda is serving as headquarters chairman for this year's drive. In 1959 she directed the county-wide campaign as residential chairman and for the past four years has worked as city chairman for Alameda.

With the time for the April 17 house-to-house campaign drawing near, Mrs. Smock pointed out that additional office volunteers, particularly typists, are still needed to complete last minute preparations.

Women interested in volunteering a few hours a week are urged to contact the Cancer Society, 354 - 21st Street.

## Labor Relations Expert to Speak Before Rotary

The Albany Rotary Club will have "Pug" Kilpatrick as its guest speaker next Tuesday, April 18. Kilpatrick is Executive Secretary of Food Industry Labor Service, representing the food dealers from the Kern County line to the Oregon border. He began at the practical side of Labor Relations, when, at the age of 17, he negotiated his first contract for the wholesale grocery companies in Chico, Marysville and Redding. He got his real start in the first Retail Clerks contracts that were negotiated north of Sacramento between 1937 and 1940.

Kilpatrick is a graduate of the University of California where he also took graduate studies specializing in Labor Relations. He was a P-39 pilot during World War II serving in North Africa, Italy and France.

Program chairman of the day is Bob Olson. The club luncheons are held each Tuesday noon at Spenger's on Fourth Street in West Berkeley.

## Merced Postmaster To Talk at Rotary

Merced Postmaster John R. Hahn will be the featured speaker at the El Cerrito Rotary luncheon tomorrow, April 13. He will speak on the subject, "Veterans' Problems". Hahn is currently Deputy Commander of the American Legion for California. Frank Scott will be chairman of the day.

## TRYOUT PLAN FOR KEY ROUTE PARKING

The Albany City Council Monday night adopted a compromise plan designed to ease the parking problem on Key Route Boulevard without disturbing the parking situation on the median strip in front of the high school, or the commercial situation as it exists near the Solano Avenue intersection.

The plan, which will be on a "try-out" basis for the next 90 days, contemplates unlimited parking along the center strip, except in the area approaching Solano Avenue, where there will be limited parking before nine in the morning and after four in the afternoon. Parking in front of the high school along the median strip will be the subject of further study by City Engineer James Turner.

It was brought out during the public hearing and the council discussion which followed, that the fatal accident on Key Route which started the move for further traffic restrictions had occurred late at night when there was no traffic problem, and that the existing boulevard stop had not been effective.

The council split three to two on a motion to bring up the matter of Assembly Bill No. 755, previously "tabled", and which would permit candidates for city or county offices to designate their party affiliation on the ballot. Councilmen Howell and Parker spoke strongly against the bill on the ground that city and county offices should be non-partisan. Councilmen Hein and Boyich favored such an option, and were backed by Mayor Carlevaro, the vote being 3 to 2 to again table the matter.

A motion by Councilman Boyich, seconded by Councilman Hein to enlarge the "Building Committee" from 20 to 50 members, at the committee's request, was approved unanimously. A check is to be made of the present membership as to the individual's willingness to continue to serve on the committee, and then to fill any vacancies and increase the membership to a total of 50. The original committee was named by Mrs. Zahn last fall.

The meeting was somewhat prolonged with a discussion regarding a motion by Councilman Boyich asking for emergency action to cover the matter of prohibiting parking in "set-back" areas. This is covered in the proposed new zoning ordinance, but apparently is not now so covered. City Attorney Foley explained possible measures, and it was finally decided to get a written opinion on the matter from him for presentation at the next meeting of the council.

Albany Superintendent of Schools was asked by the Mayor to give a verbal report on his day in Sacramento, from which he had just returned, after appearing before the committee considering the problem of support for the Albany School System in providing state funds to cover the schooling of children from the University Village area, which runs to many thousands a year and is expected to double within the next few months. The city receives no taxes on this property which belongs to the University and is tax exempt. Superintendent Forry promised to keep the council informed on further developments.

A protest against the "Yield" signs on Washington Avenue as being ineffective, and a possible danger, was made by W. P. Mortensen, 1136 Washington Avenue. In the discussion which followed it was agreed that this was something which should be studied, and a motion to refer the matter to Engineer Turner passed unanimously.

John Berdolt, representing the Painters' Union, spoke on the subject of curtailing the "odd jobs" work presently being done by members of the Fire Department, and asking that this might be studied with a view to turning at least a majority of this work to union painters. The council referred the matter to Administrative Assistant and City Engineer James B. Turner.

## Junior Statesmen Hold Convention At Menlo-Atherton

A discussion of legislation dealing with national and international problems highlighted the Junior Statesmen of America Inter-Regional Convention at Menlo-Atherton High School, on March 25.

For the first time in three years Albany was represented by Dave Dimmick, Bob Marshall, Victor dela Cruz, Jerry Foot and Nancy Farber.

During the legislation period several important resolutions were approved. These resolutions covered the recognition of Red China, the establishment of a Radio Free Asia, the abolishment of the House Committee on Un-American Activities, the outlawing of billboards on scenic highways in the state and the resolution on the procedures in high school student councils.

The discussion period was entitled "The Future of Africa." This was a panel discussion. The

panelists were Mr. Holmes, a negro Social Science teacher at Menlo-Atherton; Mr. Donald Stokes, a representative of the British Information Service; Mr. deLeeuw, the foreign exchange student from Clayton Valley High School from the Union of South Africa; and a negro representing the students of Menlo-Atherton.

Following dinner, Benjamin Travis, a lawyer from Oakland, spoke on the role youth will play in American society.

The Junior Statesmen of America are young people of high school age whose fundamentals are to learn the efficient way to run government and to learn how to govern themselves in the best interests of the people rather than in the interests of personal gain.

Under the direction of Mr. Morgan, the club's advisor, some of the future activities for the Albany Chapter are the State Convention at Pasadena and the possible co-hosting of the Regional Convention at Harry Ells High School.

Other activities at Memorial Park include a sign-up for horse-shoe leagues for both men and women. This activity, with family volleyball, will comprise part of a physical fitness through recreation program. Sign up at Memorial Park, Portland and Carmel Avenues, or at the Recreation Office, 1041 Solano Avenue.

## Mulford Asks State Check on Yountville Home

Assemblyman Don Mulford today announced that he was requesting Assemblyman Glenn Coolidge, Chairman of the Joint Legislative Audit Committee, to initiate an immediate audit through the Auditor General of the State Veterans Home at Yountville.

Mulford said that charges and rumors in Sacramento require clarification. "I have no facts to conclude anything regarding the Yountville operation. I am unable to reply to inquiries from constituents regarding the situation. I am doing everything possible to obtain information concerning the operation of the Home, including the removal of the Commandant. I feel that the information should be made public and let the chips fall where they may. I do not defend the operation of the home nor do I criticize it. I simply do not have information and this is the reason for my request", Mulford concluded.

**THE DOZER...** A little corn is a good thing once in a while. You have Mr. Muffet's word for it. He fell asleep at the wheel and wound up in a corn field. It's fortunate it was not a brick wall or another car, or Mr. Muffet would really be asleep. The AAA Foundation for Traffic Safety warns that drowsiness and highway hypnosis are common problems to freeway drivers. As a safeguard, stop every 100 miles or so for a coffee break and a stretch.

CAMANCHE RESERVOIR, 25 miles northeast of Stockton on the Mokelumne River, will serve four purposes: 1. provide a reserve supply of water for the 1 million people served by the East Bay Municipal Utility District; 2. provide ample water for irrigation needs along the lower Mokelumne; 3. prevent any repetition of the disastrous floods along the Mokelumne in 1950, 1955 and 1958; 4. provide a water recreation area 9½ miles long and 2½ miles wide, ideal for swimming, boating, fishing and water skiing. The huge EBMUD dam will cost around \$140 million, with up to \$10 million for flood control features coming from the Federal government. Construction is scheduled to start in 1962, with the dam to be completed in 1964.

### MORE AMERICANS ARE INJURED EACH YEAR IN AUTO ACCIDENTS THAN WERE INJURED IN BOTH WORLD WAR II AND KOREA COMBINED

It's a fact: 774,230 American servicemen injured in the last two wars. And yet, over 1 million auto injuries are reported each year! Good reason for car insurance coverage against costly accidents. More and more careful drivers are insuring with State Farm and enjoying complete car insurance protection, plus "Hometown Claim Service" wherever they drive. Contact me today.

## "EBMUD GIVES COFFEE A BREAK!"

Moraga's Jim McCabe is a professional coffee taster. According to Jim, EBMUD water is a coffee lover's best friend.

"Good water makes good coffee," Jim says, "and EBMUD water is outstanding. It's extremely pure, and there's almost no mineral content. That's why coffee tastes noticeably better here than in many other parts of the country."

Thanks, Jim. Incidentally, the same holds true for tea, soup, and frozen juices. Have you noticed? Anything you mix with pure, soft EBMUD mountain water always tastes its very best.

### CHRISTIAN SCIENCE

The oneness and supremacy of God will be emphasized at Christian Science services this Sunday.

"Doctrine of Atonement" is the subject of the Lesson-Sermon. The Golden Text is from the first chapter of II John: "He that abideth in the doctrine of Christ, he hath both the Father and the Son."

The opening selection to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states: "Jesus taught but one God, one Spirit, who makes man in the image and likeness of Himself — of Spirit, not of matter" (p. 94).

From the Bible will be read from Psalm 143: "Teach me to do thy will; for thou art my God; thy spirit is good; lead me into the land of uprightness."

Christian Science Society of Albany meets regularly at 533 San Pablo Avenue, Albany. The Sunday morning service is at 11 a.m., and the Wednesday evening meetings are held at 8 p.m. The Sunday School convenes every Sunday morning at 11 o'clock. All are cordially invited to attend the Sunday services and the Wednesday meetings to bring their children to the Sunday School. Come and learn how you can be healed of sin and sickness.

**State Farm Mutual 1960 Annual Report**  
Predicts Further Insurance Rate Cuts  
Lower car insurance rates are foreseen by the president of the nation's largest auto insurance company, which already has cut \$6,000,000 from its policyholders' premium bill.  
Edward B. Rust, president of State Farm Mutual at Bloomington, Ill., said further cuts are likely in 1961 providing claim costs continue downward. Insurance rates and the traffic accident toll march hand-in-hand, he said, and stepped-up traffic safety efforts in many large cities are beginning to pay off in lower insurance costs for many motorists. In a few areas where accident experience has worsened, rates may go up, but the overall picture is good, he said.  
Better insurance company experience in the nation's courtrooms is also helping to lower costs. Rust credited a recent trend toward more reasonable jury awards to growing public awareness of the relationship between damage verdicts and insurance rates.  
Rust's comments were made in his year-end report on 1960 operations of State Farm Mutual.  
The District Manager for State Farm in Albany and Berkeley is Chris Roden, CLU. He said his company is now in its twentieth year as the nation's largest auto insurer.  
Earned premiums and memberships rose 8.6 per cent last year to a record \$469,117,621.  
At the year's close, there were 6,161,433 policies in force, an increase of four per cent over 1959, and State Farm policies covered 12 per cent of the private passenger cars operating in the U.S.  
Assets reached \$639,558,318, or 12.6 per cent over the 1959 figure. Surplus to protect policyholders was increased \$50,613,018 to \$206,732,643.  
For the eleventh straight year, claims paid were up, increasing 8.8 per cent to \$243,829,851. The company settled a record 2,157,390 claims in 1960.  
Two new companies were added to the State Farm group in 1960. State Farm Assurance, organized in October, will write business in areas where State Farm Life Insurance Company does not operate. State Farm

In a rapidly changing world,  
where everyone seems to have a  
little different idea how the  
schools should be run, our fam-  
ily has felt very fortunate over  
the years in growing up in the  
well-balanced Albany school sys-  
tem. As a part of the basic train-  
ing made available to our young  
people, our science course pro-  
gram has impressed us as being  
particularly well directed. This  
is reflected in greater interest in  
scientific careers by our students,  
and in Albany's sending two Sci-  
ence Fair regional winners to the  
National Science Fair during the  
past four years.  
Other quite different features  
which we believe round out the  
school program and make it a  
complete educational service for  
the community include the ex-  
cellent music program and a self-  
sustaining adult education pro-  
gram all of which is worthy of  
our continued support at the tax  
election on May 9.

Asst. Marine Superintendent  
1241 Garfield, Albany

Because of my work I recently  
was transferred from Southern  
California to the Bay Area.  
In choosing a place to live, one  
of our prime considerations was  
the continued schooling of our  
two teenage children. We chose  
to locate in Albany because of  
the very fine reputation of Al-  
bany High School and its prox-  
imity to the University of Cali-  
fornia. The special Speed Read-  
ing Course at Albany High  
School, for example, was instru-  
mental in helping our son to be  
chosen for the Advanced Place-  
ment Program at the University  
of California.  
We are aware, as most people  
are, that living expenses have  
been steadily growing. But we  
also realize the urgent necessity  
of providing the best possible  
education for our children. To me  
it is readily apparent that our  
best investment is in our educa-  
tional system and, to look at it  
from a selfish point of view, an  
up-to-date, progressive school  
system actually increase the re-  
sale value of every home in our  
city. Even though our daughter  
is in her second year of college  
and our son will graduate from  
Albany High School this June,  
we intend to vote for the addi-  
tional 25 cent school tax on May  
9. We hope and believe that most  
of Albany's clear thinking citi-  
zens will join with us.

**Mr. and Mrs. FRANK RYKEN**  
Retired  
1014 Pomona Ave., Albany

We have been residents of Al-  
bany for more than 42 years. All  
7 of our children have received  
their fine education in our  
schools. Just recently when one  
of our daughters became ill it  
was necessary to take our 9 year  
old granddaughter into our home,  
for she too had been ill and was  
in need of special teaching.  
Our schools provided a home  
teacher for an hour each school  
day for several weeks. When she  
returned to school, Adrian was  
right up to her class. We are vot-  
ing for the tax election on May 9  
in order to keep our schools good  
and to see that those who need  
it may get special help.

**LAW IN ACTION**  
**SUNDOWNERS**  
What with California's popu-  
lation boom, many people go  
into spare-time ventures. Some  
work in a nearby factory and  
sell their farm after work;  
some older  
folks come  
here to retire  
and go part-  
time into busi-  
ness - buy-  
ing or renting  
houses, store-  
keeping, or making or selling  
things. Some parts of the coun-  
try call such people "sun-  
downers."  
Are you thinking of becom-  
ing a sundowner? Then find  
out how you stand legally: Are  
you a partner, an independent  
contractor, an employee, an  
agent - or what?  
You may be a "partner"  
when you share an enter-  
prise's gains and losses though  
you never sign any papers;  
and you may have to help pay  
off its debts if it goes broke.  
You may be a sole owner,  
say of a corner store, and be  
legally responsible yourself.  
Or you may act as someone's  
"agent" and share responsi-  
bility with your "principal."  
Yet as an independent con-  
tractor you may serve some-  
one and alone be legally re-  
sponsible yourself.  
To limit your losses or to  
gain tax advantages, you may  
set up your business as a cor-  
poration. Or sometimes you  
may have your business taxed  
as a corporation even though  
otherwise it is a partnership.  
If you bought your business,  
did you get the seller to agree  
in writing not to compete near-  
by? Did you run a proper legal  
notice and record your papers  
to avoid paying the old owner-  
er's bills? And did you settle  
in writing who pays the ac-  
crued sales and property  
taxes?  
Do you lease? What happens  
if you want to sell or move?  
Who repairs the roof and  
plumbing? Can you sublease  
or move the attached fixtures?

**Get a clear understanding of**  
**how you stand. If it is import-**  
**ant get it in writing and have**  
**a lawyer check it for "bugs."**  
**Sundowning is more fun than**  
**way.**  
*Note: California lawyers offer this column so you may know about our laws.*

**This island of gas**  
**helps keep PG&E service**  
**your best bargain**

Under MacDonald Island in the San Joaquin River Delta is America's largest natural gas  
"storage tank." PG&E is pumping out-of-state natural gas into this old gas field. In summer,  
when you use less gas for heating, we put it underground at MacDonald Island—ready for  
instant delivery when cold snaps come. Using nature's mile-deep reservoir is an economical  
way of storing this low-cost energy. This is another project in Pacific Gas and Electric  
Company's continuing program of building ahead for California—a state on the grow.
